

Taska Platform UI & UX Design

Complete System Screen Flow & Interactive Architecture Documentation

1. Admin Operations

- 16 High-Res Desktop Screens
- Analytics, Kanban & Dispatch
- Users, Techs & Compounds CRUD
- Live Support Chat Desk
- Dynamic Translations Matrix

2. Resident Experience

- 15 Mobile & Desktop Screens
- Neighborhood Technician Radar
- Request Wizard & Bids Market
- Live GPS Dispatch & In-App Chat
- Dual Themes (Light & Dark)

3. Technician Cockpit

- 8 High-Contrast Mobile Screens
- Radar Dispatch & Daily Stats
- Counter-Offer Bidding Drawer
- GPS Route Navigation Cockpit
- Contractor Credentials Card

.NET 8 / ASP.NET Core • React 18/19
SignalR • WebSockets • Entity Framework

VERIFICATION STATUS

39 Real Screenshots Captured
● 100% Real Live Environment Verified

ENTERPRISE DISTRIBUTED ARCHITECTURE OVERVIEW:

Taska is engineered with a high-throughput .NET 8 (C#) Web API backend and React 18 multi-portal clients. It delivers sub-second response times, event-driven dispatch via ASP.NET Core SignalR WebSockets, ACID relational guarantees with Entity Framework Core 8, and role-based JWT security.

1. ASP.NET Core 8 Web API & Service Tier

RESTful Micro-Services • Clean Architecture • Dependency Injection

- **Clean Architecture:** Separation of Controllers, Domain, and EF Core Infrastructure
- **Asynchronous Pipeline:** Fully non-blocking async/await with CancellationToken
- **RESTful Versioning:** Standardized routes under /api/v1/* with JSON camelCase formatting
- **Middleware Pipeline:** Global exception handling, CORS policy, Serilog, and rate limiting
- **Dependency Injection:** Native IServiceCollection registering scoped DbContext & services

2. Real-Time Engine (ASP.NET Core SignalR)

Bidirectional WebSockets • Live Dispatch • Group Multiplexing

- **Strongly-Typed Hubs:** OrderHub & SupportHub enforcing compile-time client contracts
- **Group Multiplexing:** Dynamic channel grouping by compound_{id} and order_{id}
- **Sub-Second Dispatch:** Instant broadcasting of resident requests to nearby technicians
- **Live GPS Route Tracking:** Continuous contractor route coordinates and ETA streaming
- **Administrative Chat:** Two-way admin-resident support messaging with audio chimes

3. Security, Identity & Role-Based Access (RBAC)

ASP.NET Core Identity • Claims-Based JWT • Multi-Tenant RBAC

- **ASP.NET Core Identity:** User store with PBKDF2 hashing and security logout guards
- **JWT Authentication:** Cryptographically signed JWT bearer tokens + refresh tokens
- **Policy-Based RBAC:** Role enforcement: [Authorize(Roles = 'Admin,Resident,Technician')]
- **Two-Factor Auth:** SMS/Email OTP challenge validation for resident and tech logins
- **Defense-in-Depth:** Strict CORS whitelisting, XSS mitigations, and FluentValidation

4. Entity Framework Core 8 & Relational Data

Code-First Migrations • LINQ Optimization • ACID Transactions

- **Code-First Migrations:** Fluent API entity definitions with automated schema migrations
- **Domain Data Models:** Compounds, Units, Users, Technicians, Orders, Bids, Payments
- **Query Optimization:** Compiled queries, eager loading (.Include), and projection (.Select)
- **ACID Transactions:** Execution strategies with retry resilience and financial consistency
- **Audit Interceptors:** Automatic tracking of CreatedAt, UpdatedAt, and Actor identity

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

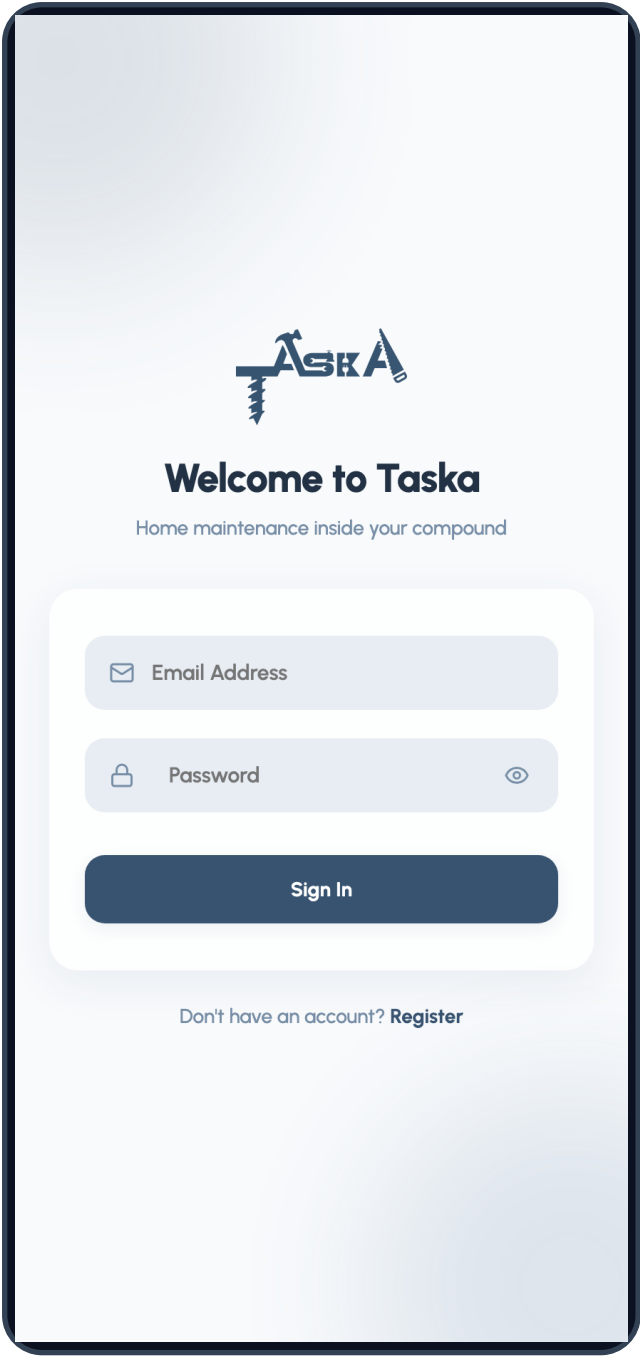

Animated entry splash introducing Taska compound maintenance platform with feature highlights, quick service guarantees, and action buttons.

TECHNICAL SPECIFICATIONS

Role Persona	Compound Homeowner / Resident
Route Path	#/splash
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Animation Framework	Framer Motion staggered keyframes
Navigation Triggers	Get Started -> #/login, Register -> #/register

KEY CAPABILITIES & USER FLOW

- ◆ High-contrast brand aesthetic with dynamic glowing gradient orb
- ◆ Feature badges highlighting instant response and vetted contractors
- ◆ Smooth mobile navigation transition into authentication flow

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

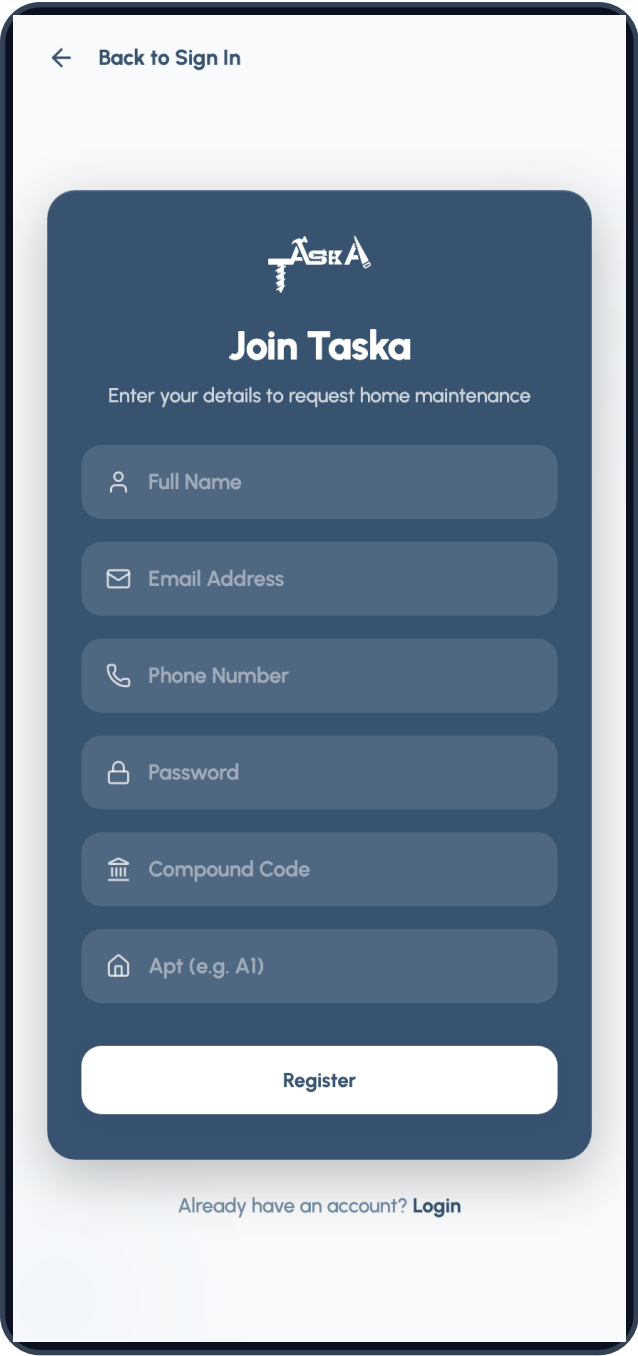

Clean login screen featuring dual phone/email authentication, and compound apartment recognition, secure tokenized authentication.

TECHNICAL SPECIFICATIONS

Role Persona	Registered Resident
Route Path	#/login
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Auth Mechanism	Phone / Email + Password via ASP.NET Core Identity
State Store	Zustand authStore with persistent session storage

KEY CAPABILITIES & USER FLOW

- ◆ Bilingual toggle (English / ■■■■■■■) with native font rendering
- ◆ Show/hide password security toggle
- ◆ Direct link to registration for new compound tenants

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

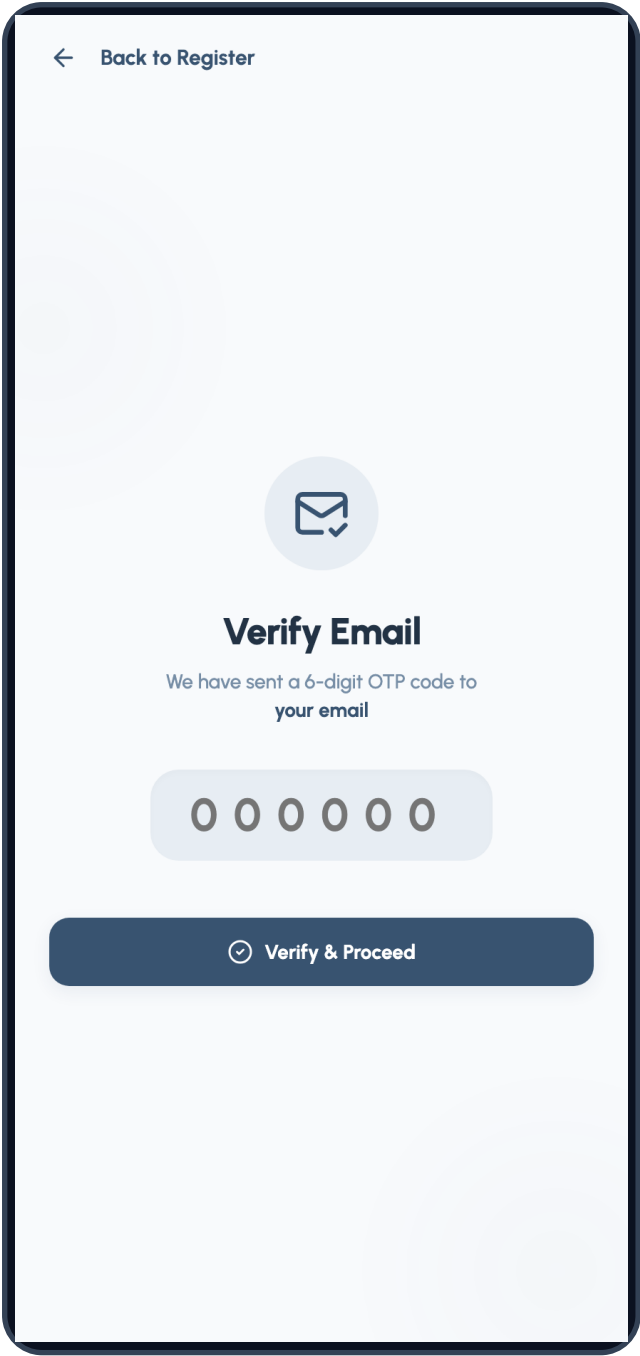

Resident onboarding form capturing name, contact information, gated compound selection, and apartment/villa identification code.

TECHNICAL SPECIFICATIONS

Role Persona	New Homeowner or Tenant
Route Path	#/register
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Fields Collected	Name, Email, Mobile, Password, Compound, Unit Code
API Endpoint	POST /api/v1/auth/register

KEY CAPABILITIES & USER FLOW

- ◆ Compound security code verification preventing external signups
- ◆ Apartment unit validation for pinpoint field technician routing
- ◆ Triggers automated OTP verification challenge upon submission

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

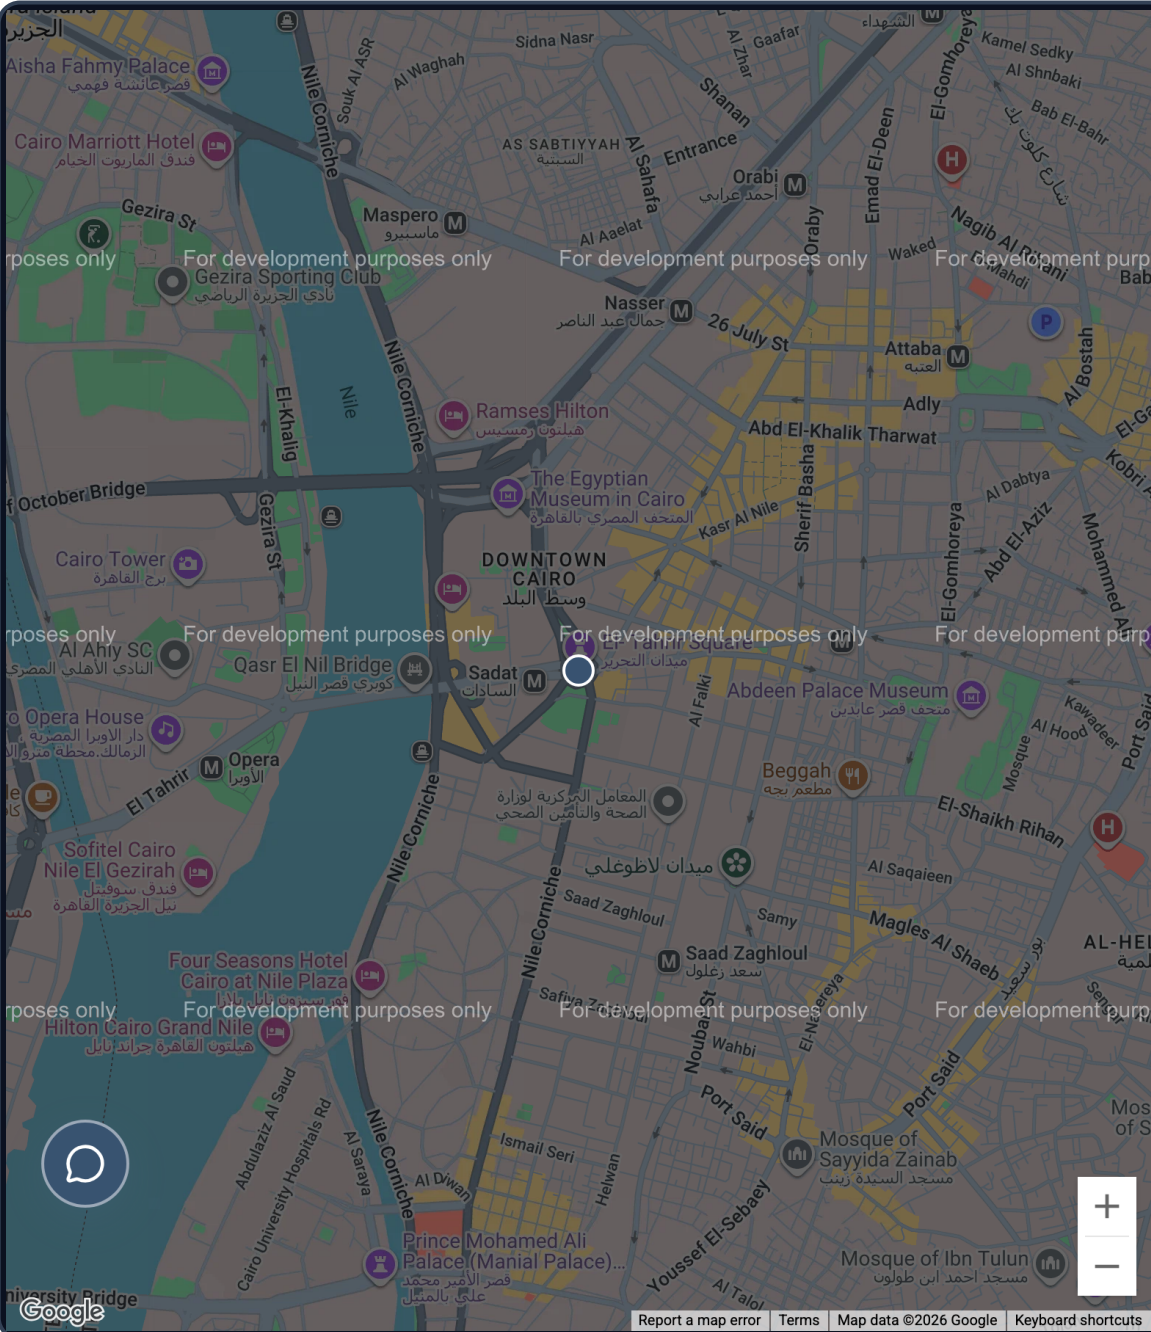

Secure 4-digit verification code screen ensuring authorized access for verified compound residents with automatic focus and resend timer.

TECHNICAL SPECIFICATIONS

Role Persona	Verifying Resident
Route Path	#/verify-otp
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Verification Method	4-digit numeric code with auto-advance inputs
API Endpoint	POST /api/v1/auth/verify-otp

KEY CAPABILITIES & USER FLOW

- ◆ Segmented individual digit inputs with automatic keyboard handling
- ◆ Countdown resend timer preventing SMS abuse
- ◆ Direct authorization token grant upon successful entry

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

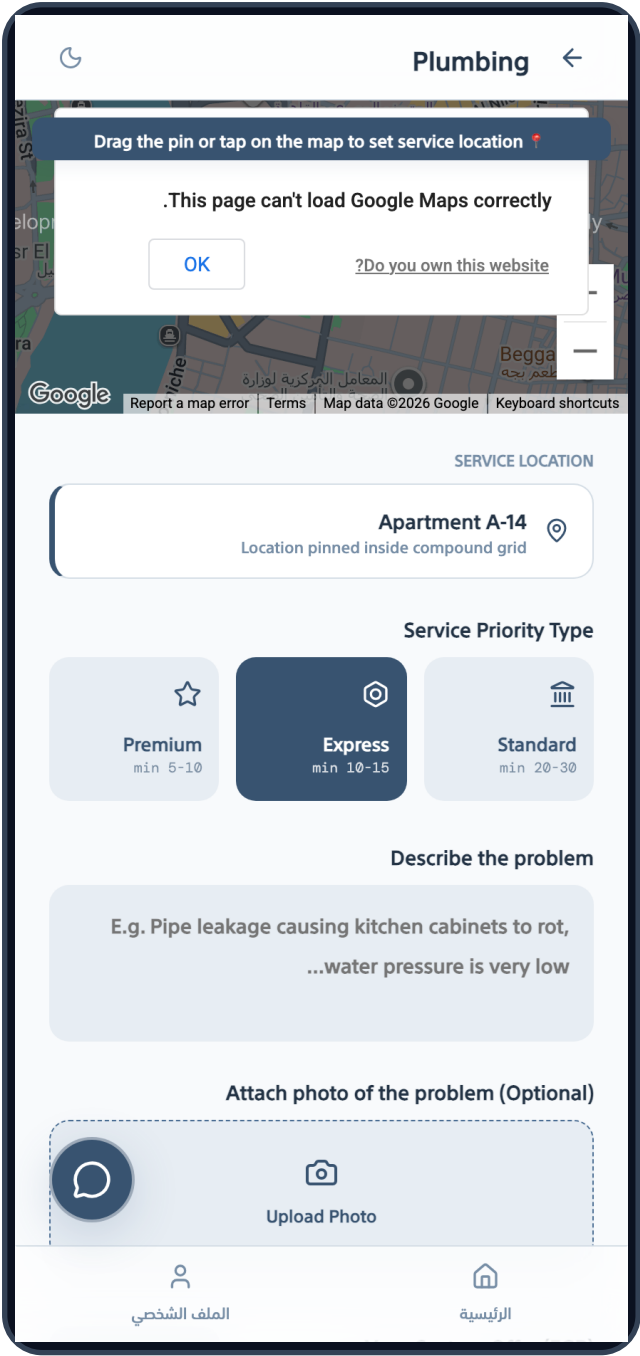

Mobile home view showcasing full-bleed vector map of compound, quick service category pills (Plumbing, Electrical, AC), and active order maintenance alerts.

TECHNICAL SPECIFICATIONS

Role Persona	Active Resident on Smartphone
Route Path	#/resident-home
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Map Engine	Google Maps JS SDK with custom Taska theme styling
Real-Time Listeners	WebSocket channel `user.{id}` for incoming bids

KEY CAPABILITIES & USER FLOW

- Full-screen interactive map with neighborhood technician pins
- Bottom drawer with quick service requests and category carousel
- Pulsing active order indicator alerting resident of technician updates

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

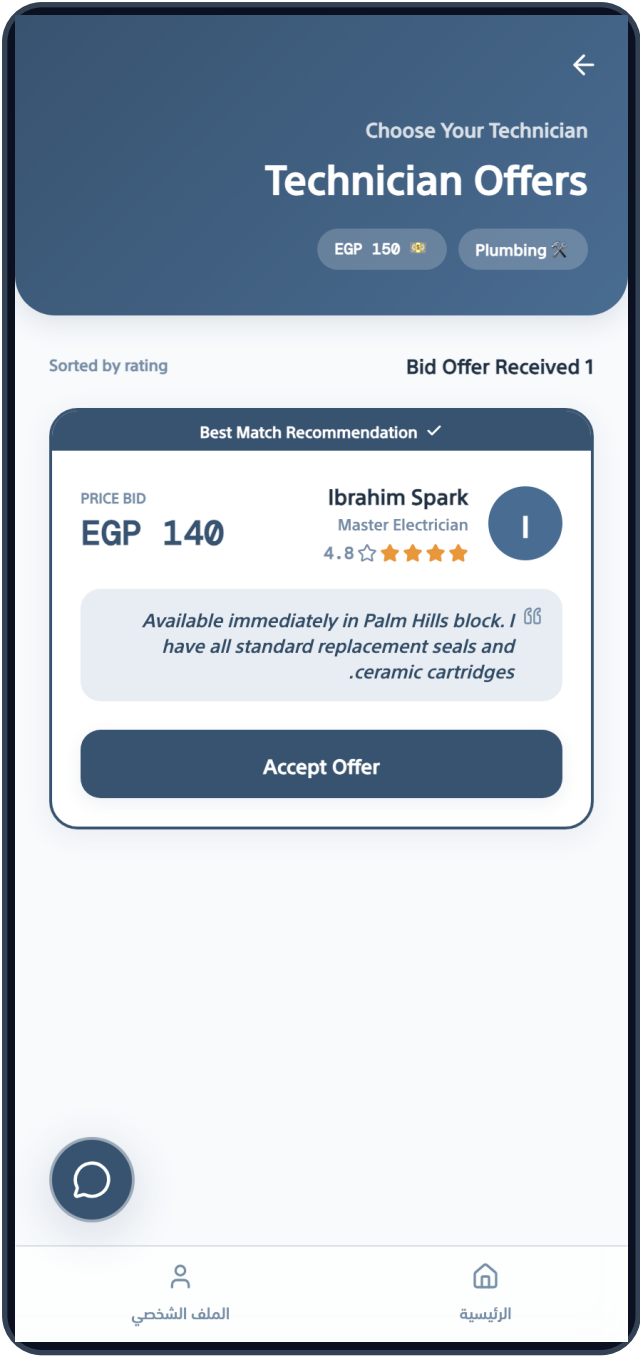

Structured request wizard allowing residents to describe maintenance issues, suggest estimated budgets, upload photo attachments, and to broadcast nearby technicians.

TECHNICAL SPECIFICATIONS

Role Persona	Resident Requesting Repair
Route Path	#/create-order
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Form Controls	Issue description textarea, budget input, file upload
API Endpoint	POST /api/v1/user/orders

KEY CAPABILITIES & USER FLOW

- ◆ Displays selected category baseline price recommendation (150 EGP)
- ◆ Automatic geolocation and apartment code attachment
- ◆ Broadcasts instant event to all online technicians in compound

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

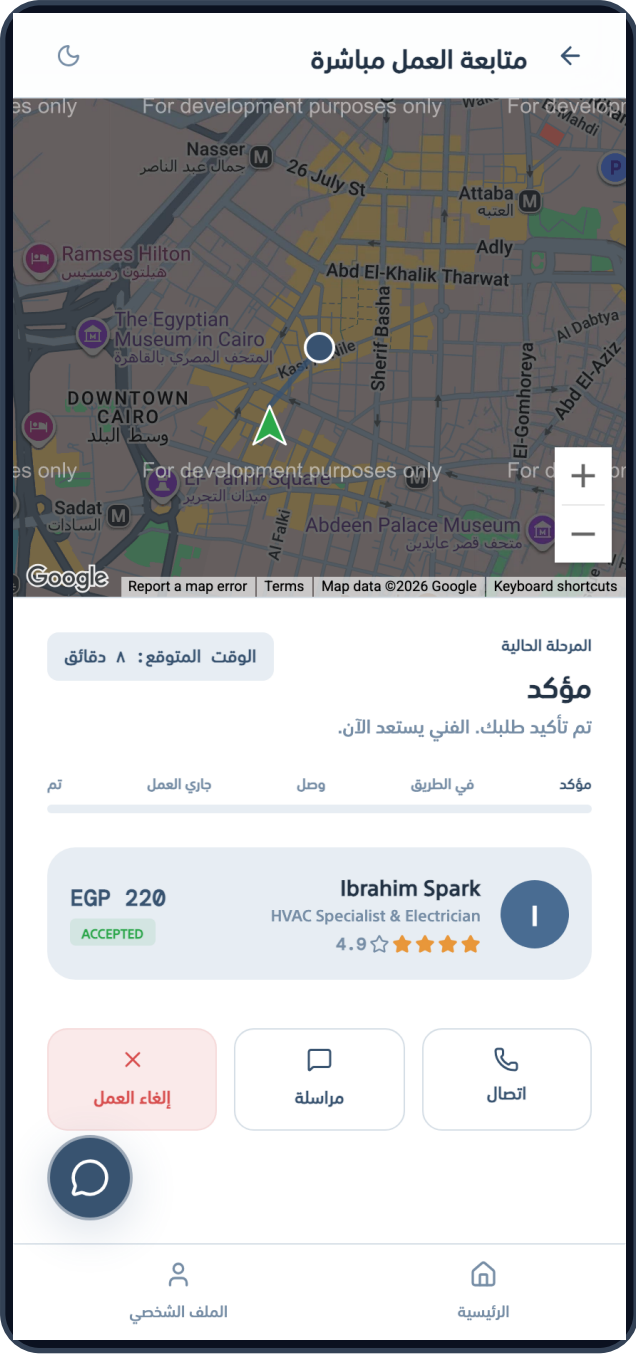

Reverse-auction marketplace where residents receive competitive price quotes from certified technicians with ETA, star ratings, and one-tap acceptance.

TECHNICAL SPECIFICATIONS

Role Persona	Resident Selecting Best Offer
Route Path	#/order-offers
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Real-Time Stream	WebSocket event `new.bid` via `user.{id}` channel
Contractor Card	Ibrahim Spark (140 EGP bid, ★4.9 rating, ETA 10m)

KEY CAPABILITIES & USER FLOW

- Shows real competitive bids from vetted technicians (e.g. Ibrahim Spark)
- Technician credentials, specialized notes, and response time displayed
- Instant 'Accept Offer' trigger that confirms order and initiates dispatch

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

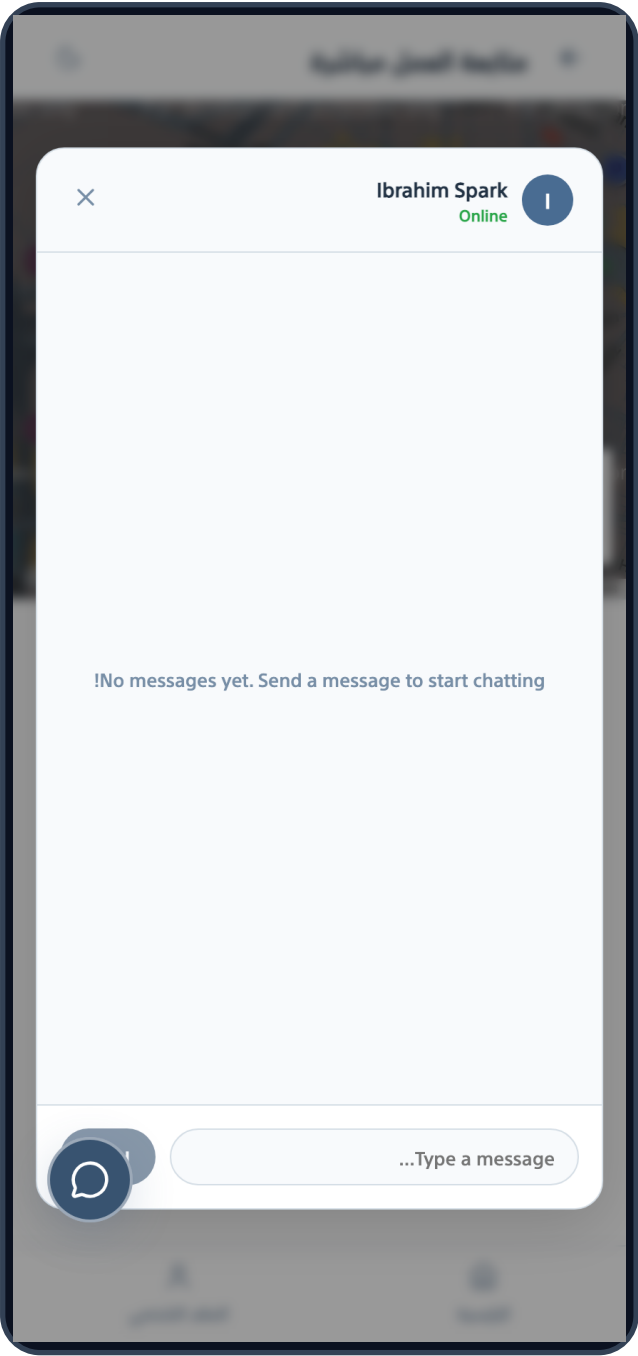

Live GPS dispatch tracking displaying technician approach on map, -> calculated route ETA, active stage timeline (Confirmed On the Way -> Arrived), and direct call/message controls.

TECHNICAL SPECIFICATIONS

Role Persona	Resident Awaiting Contractor
Route Path	#/order-tracking
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
GPS Route Engine	Google Maps DirectionsService with dynamic polyline
Active Stage	Stage 2: On the Way (Technician heading to villa)

KEY CAPABILITIES & USER FLOW

- Live technician GPS location moving toward resident apartment
- Real-time route distance and calculated arrival ETA calculation
- Fast-action buttons: Call Contractor, Message, and Cancel

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

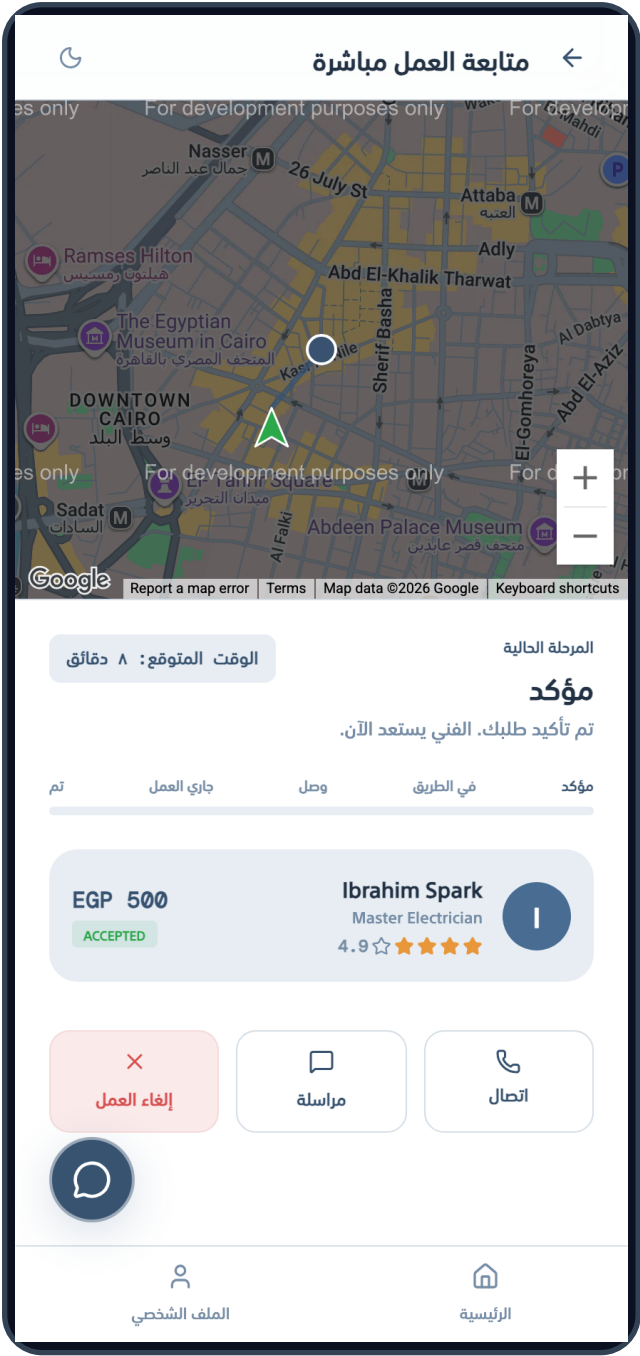

Real-time in-app chat drawer enabling direct communication between resident and assigned technician regarding gate access and arrival instructions.

TECHNICAL SPECIFICATIONS

Role Persona	Resident in Active Job
Drawer Trigger	Message button on tracking timeline
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Chat Engine	WebSockets (`order.{id}`) + REST API backup
Features	Online presence indicator, message input, audio chime

KEY CAPABILITIES & USER FLOW

- ◆ Direct secure channel without exposing personal phone numbers
- ◆ Instant message synchronization between resident and technician
- ◆ Retains complete communication history for dispute resolution

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

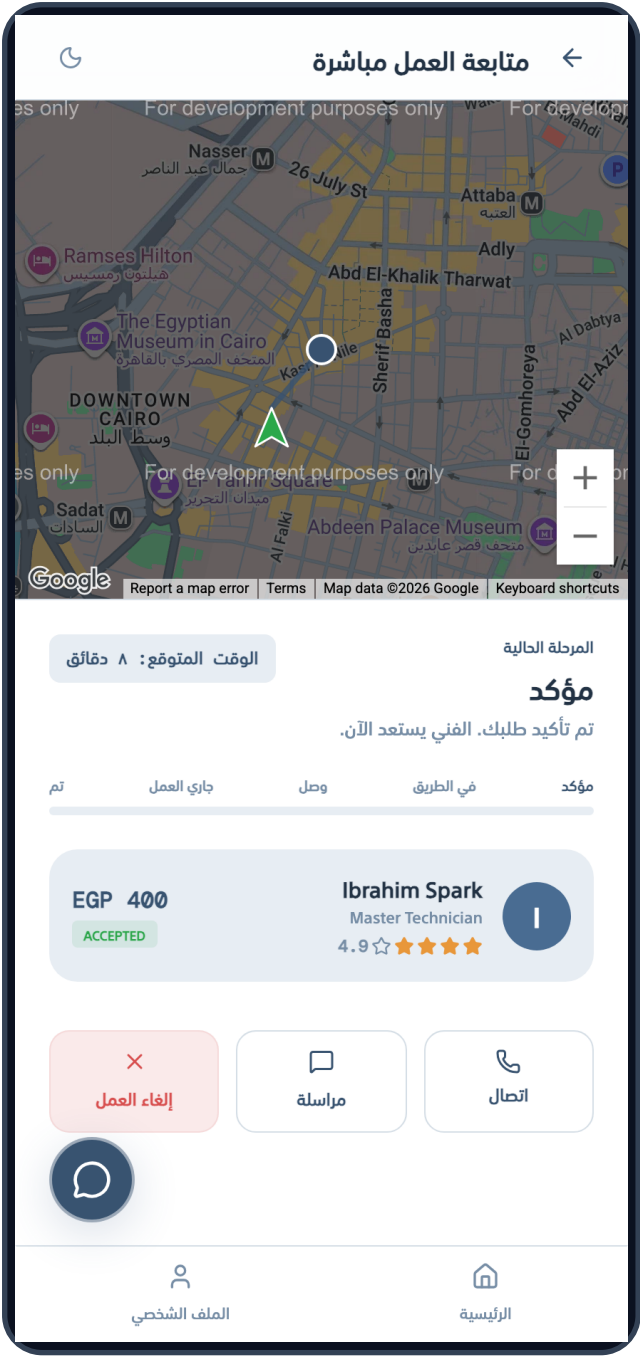

Job completion receipt detailing total agreed amount (EGP 500), and service verification, secure settlement confirmation.

TECHNICAL SPECIFICATIONS

Role Persona	Resident at Job Handover
Route Path	#/order-tracking (Completed)
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Payment Amount	EGP 500.00 (Verified)
Settlement Modes	Cash on completion / Digital card settlement

KEY CAPABILITIES & USER FLOW

- Displays verified service completion badge and final invoice
- Technician attribution card with craft and job summary
- Instant transition to quality review rating modal

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

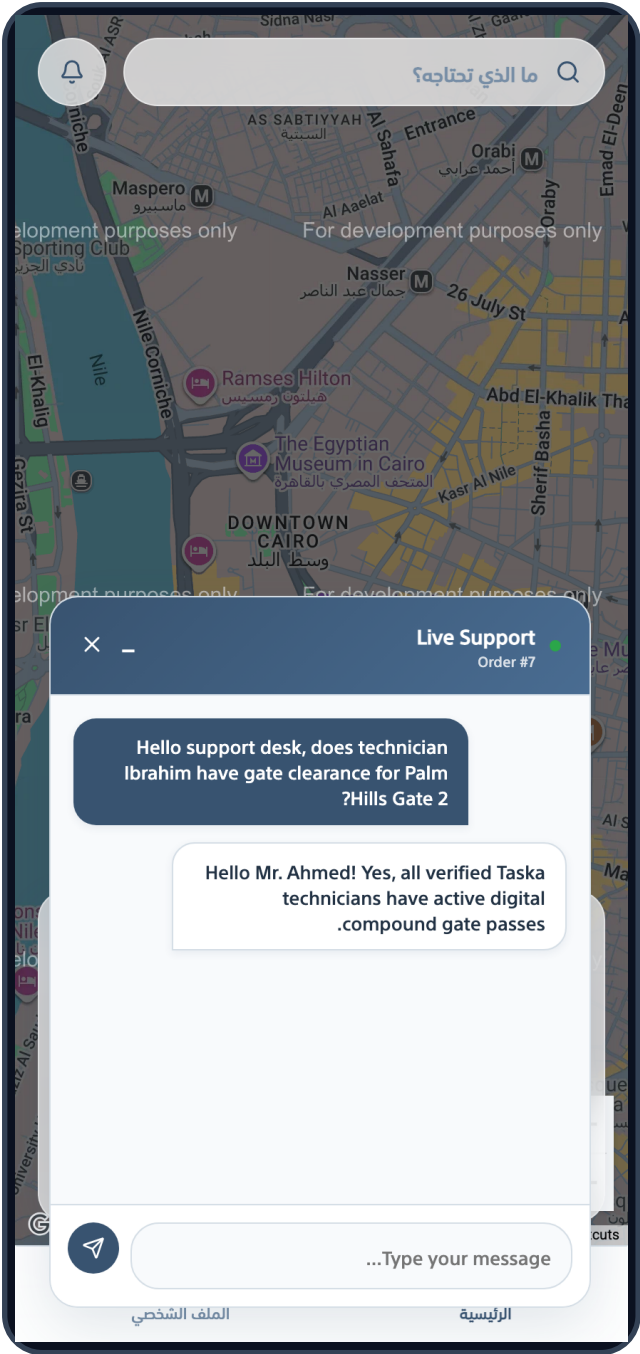

Post-service feedback modal prompting resident to award 1 to 5 stars, submit qualitative comments, and help maintain compound service quality.

TECHNICAL SPECIFICATIONS

Role Persona	Resident providing service review
Modal Type	Bottom-anchored feedback sheet
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Form Controls	Interactive 5-star selector, review comment textarea
API Endpoint	POST /api/v1/user/orders/{id}/rate

KEY CAPABILITIES & USER FLOW

- ❖ Interactive gold star scoring system with hover and active states
- ❖ Optional qualitative feedback for compound administration
- ❖ Instantly updates technician cumulative rating in database

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

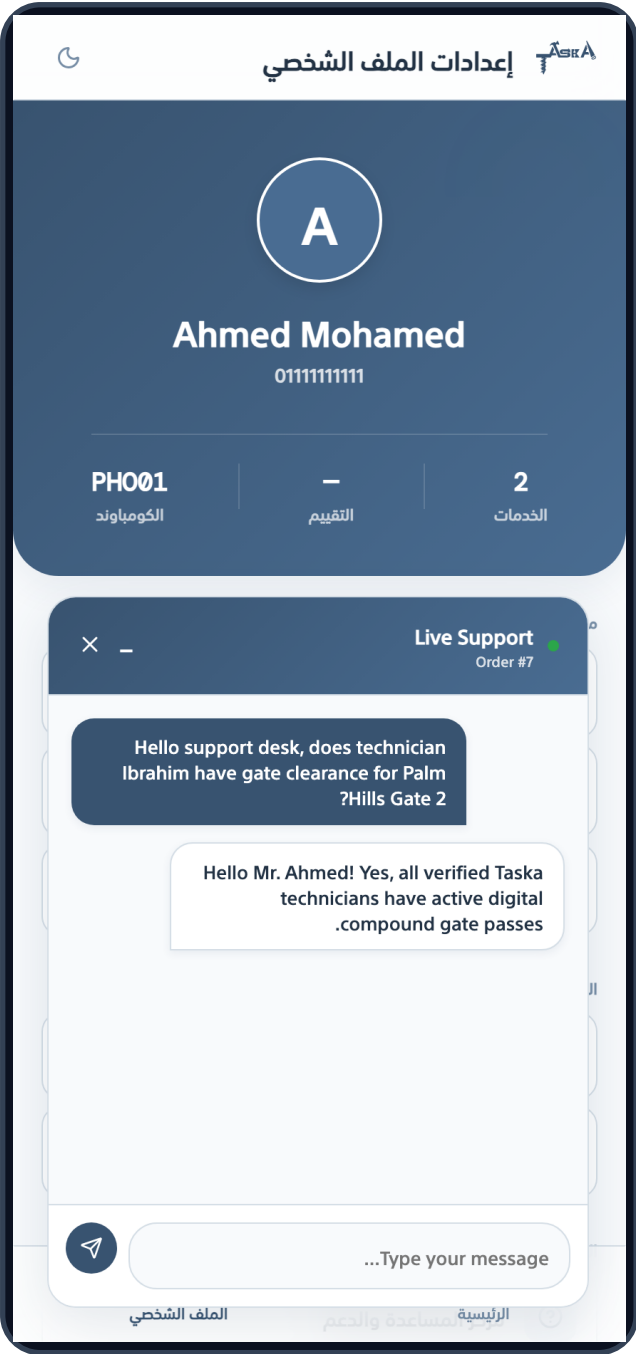

Always-available floating support assistant providing two-way with messaging administration desk regarding compound permissions and technical assistance.

TECHNICAL SPECIFICATIONS

Role Persona	Resident needing compound help
Widget Type	Floating Action Button & Modal Window
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Active Ticket	Ticket #2 (Security clearance inquiry for Gate 2)
Real-Time Channel	`support.{ticket_id}` via WebSockets

KEY CAPABILITIES & USER FLOW

- Shows authentic support chat session between Ahmed and Admin
- Displays active digital gate clearance confirmation for Palm Hills
- Minimize/maximize controls with persistent unread badge

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

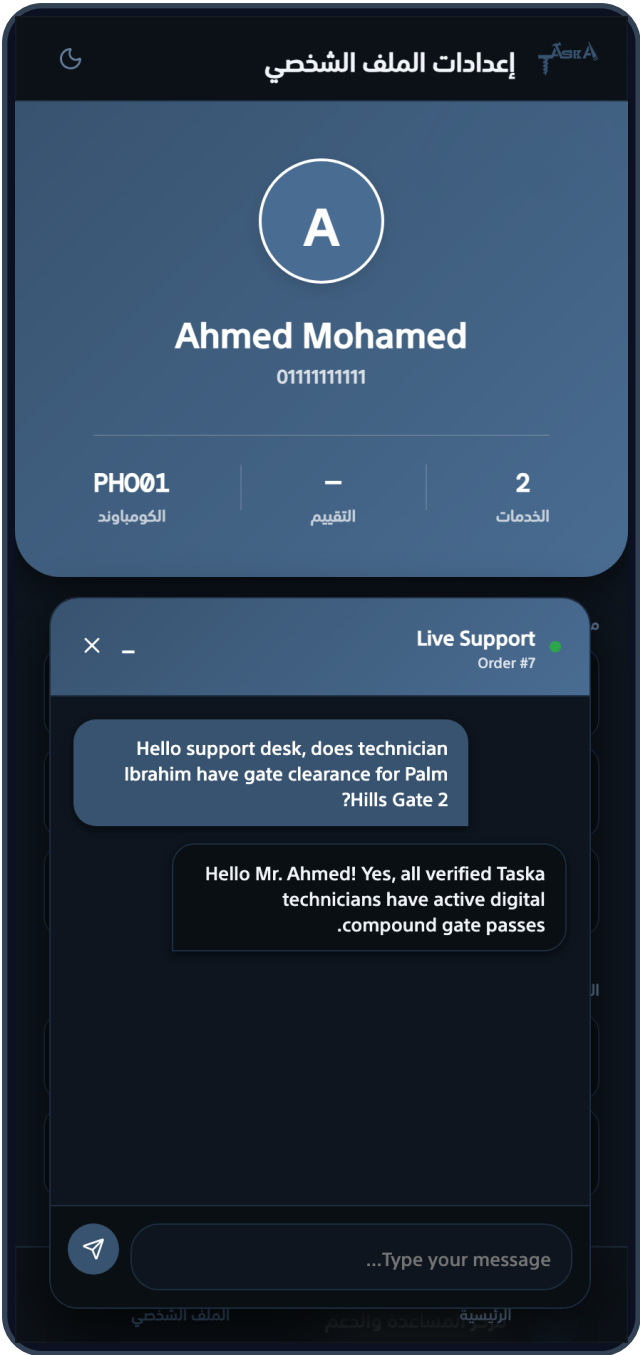

Account management hub showing resident name, Palm Hills compound and affiliation, apartment number, Arabic/English language toggle, light theme palette.

TECHNICAL SPECIFICATIONS

Role Persona	Resident Managing Account
Route Path	<code>#/profile</code>
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Active Theme	Daylight Clean Theme (<code>`taska_theme: light`</code>)
User Details	Ahmed Mohamed Palm Hills October Unit A1-402

KEY CAPABILITIES & USER FLOW

- ◆ Gradient header card with user initials avatar
- ◆ Language selector supporting Arabic and English typography
- ◆ Notification preferences and security logout controls

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

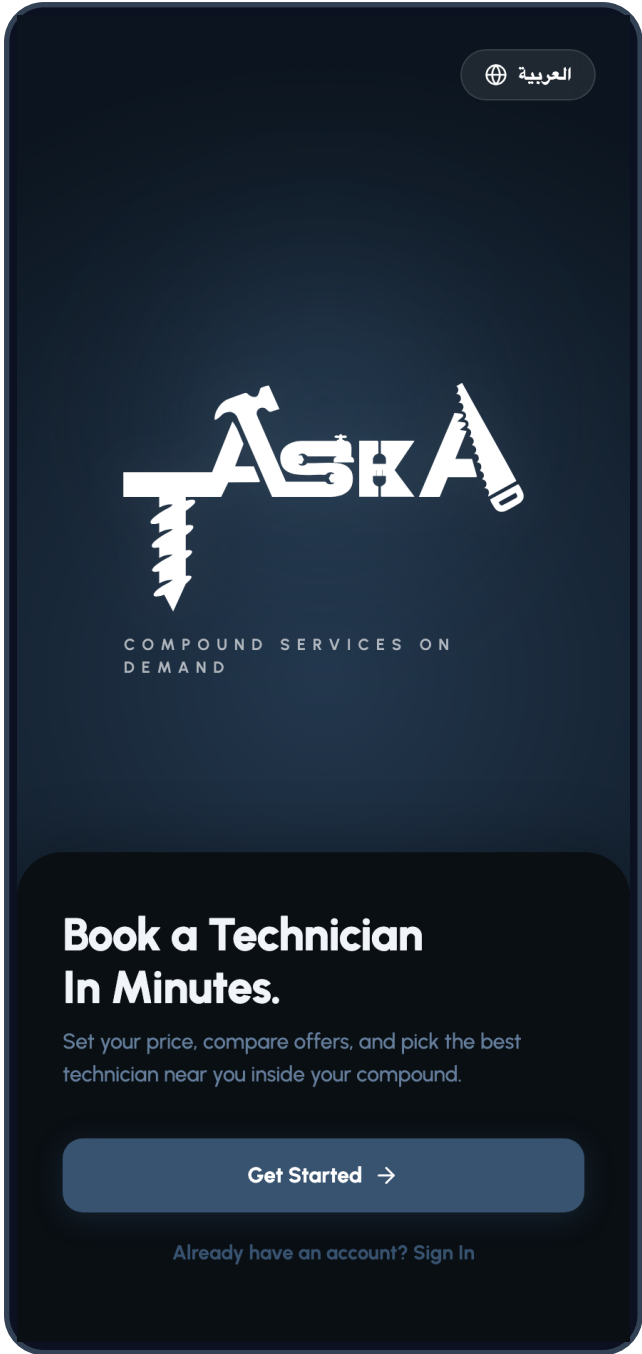

Sleek dark mode theme showcasing Taska's dual-theme CSS variable with architecture high-contrast night aesthetics and battery-efficient rendering.

TECHNICAL SPECIFICATIONS

Role Persona	Resident in Night Environment
Route Path	<code>#/profile</code>
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Active Theme	Dark Tactical Theme (<code>`taska_theme: dark`</code>)
CSS Architecture	Variable-driven tokens (<code>--surface</code> , <code>--on-surface</code>)

KEY CAPABILITIES & USER FLOW

- ❖ Demonstrates complete design system flexibility across themes
- ❖ OLED-friendly dark surface palette reducing eye strain
- ❖ Maintains WCAG AA contrast compliance across all text and icons

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

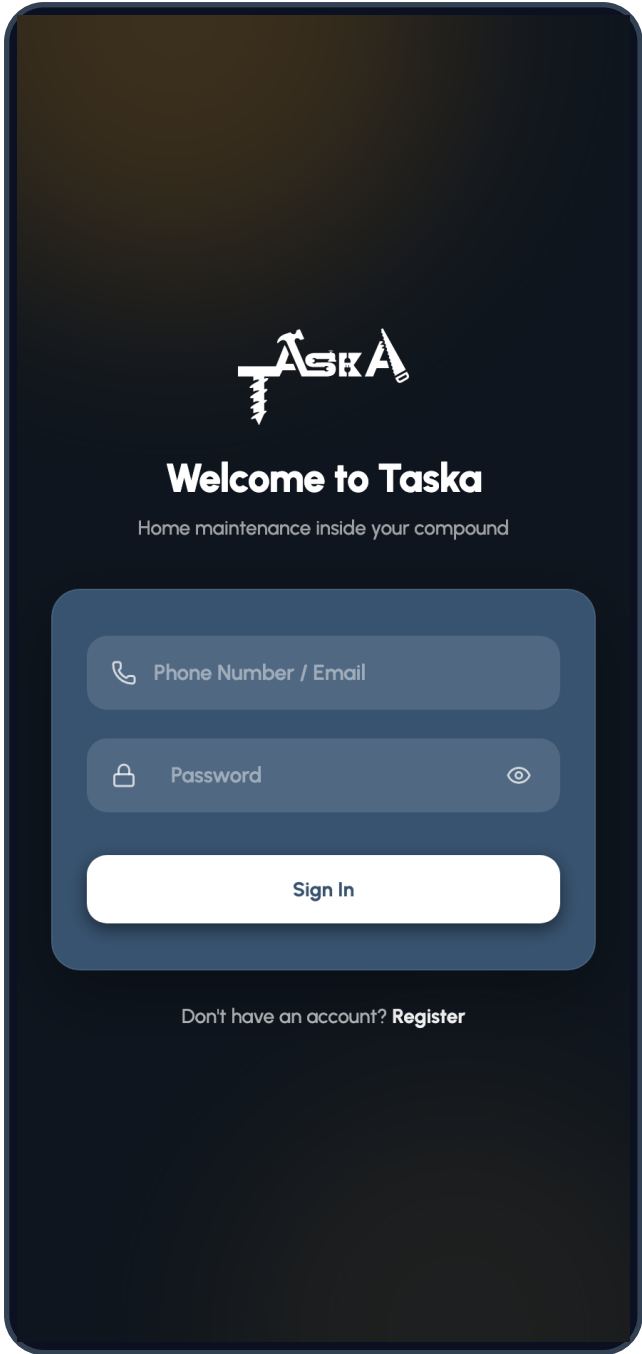

High-contrast dark tactical welcome screen tailored for field instant contractors, highlighting job dispatch, verified payments, and GPS navigation.

TECHNICAL SPECIFICATIONS

Role Persona	Certified Field Contractor
Route Path	#/splash
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Visual Styling	Tactical Dark Surface (#0E151E) with Gold Accents
Key Pillars	Nearby Requests, Real-Time Navigation, Guaranteed Pay

KEY CAPABILITIES & USER FLOW

- Designed specifically for quick readability in bright outdoor sunlight
- Instant entry point for registered compound specialists
- Highlights field benefits and contractor earnings potential

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

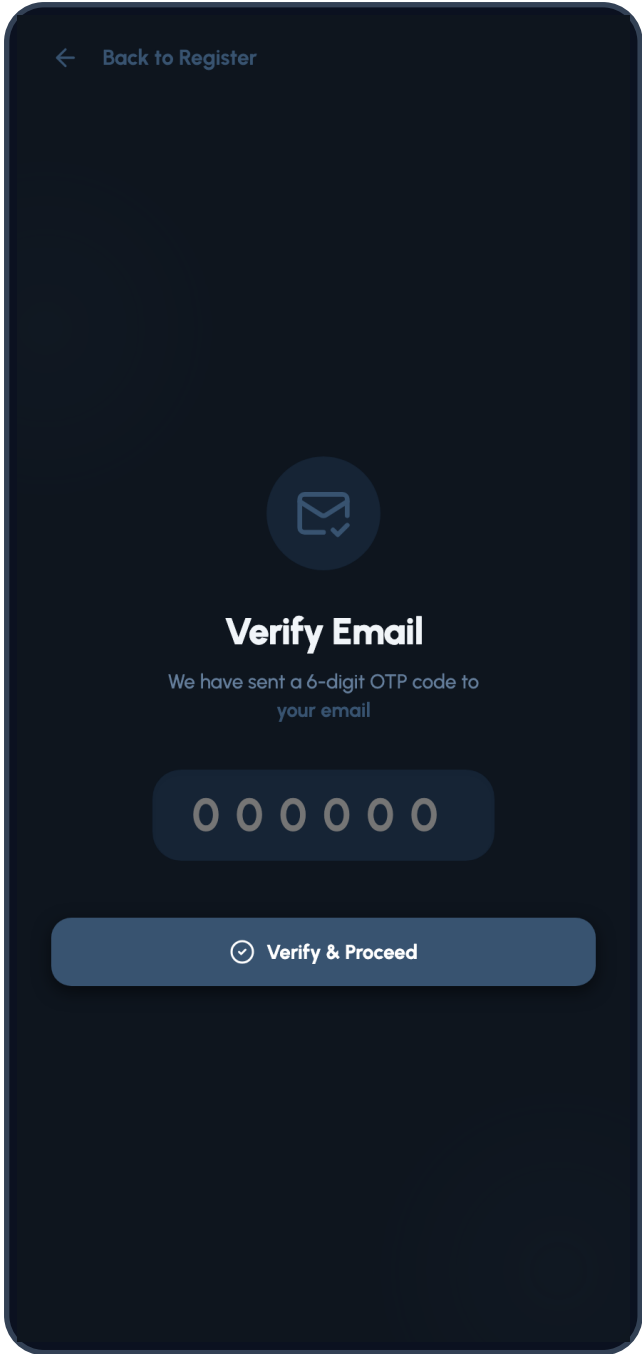

Phone-number-centric authentication screen designed for fast sign-in contractor with biometric and password support.

TECHNICAL SPECIFICATIONS

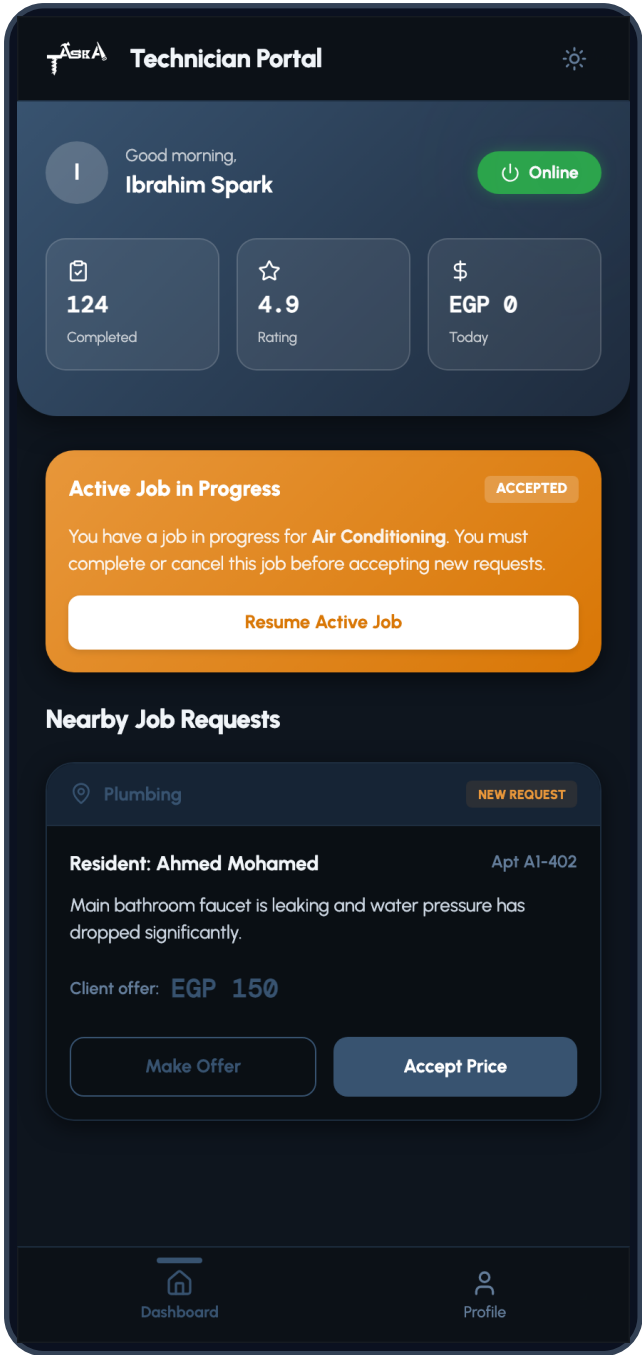

Role Persona	Field Technician Logging In
Route Path	<code>#/login</code>
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Identifier Mode	Mobile Phone Number ('01222222222')
API Endpoint	<code>POST /api/v1/auth/technician/login</code>

KEY CAPABILITIES & USER FLOW

- ◆ Streamlined contractor authentication requiring only mobile phone
- ◆ Persistent session token storage for uninterrupted daily use
- ◆ High-contrast input fields with clear focus states

Screen Architecture & Functional Specification	
OVERVIEW & PURPOSE	
Security PIN verification protecting technician identity, earned and balances, contractor job access.	
TECHNICAL SPECIFICATIONS	
Role Persona	Contractor Identity Verification
Route Path	#/verify-otp
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Challenge Code	Secure 4-digit SMS OTP verification
Security Standard	Prevents unauthorized contractor account takeover
KEY CAPABILITIES & USER FLOW	
❖ Quick-response verification screen tailored for one-handed operation	
❖ Auto-focus progression across input boxes	
❖ Direct authorization grant into the technician cockpit	

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

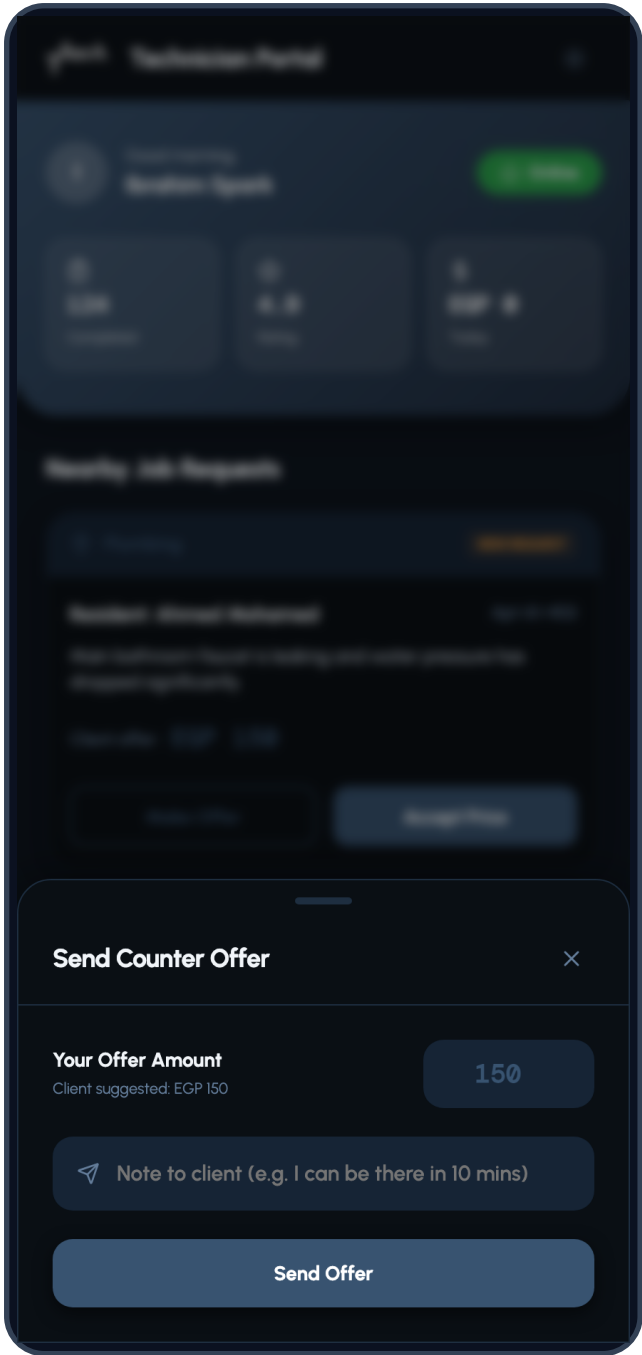

Field cockpit showing contractor online toggle, daily metrics (124 jobs completed, 4.9 rating, today's earnings), active job alert, and nearby resident service requests.

TECHNICAL SPECIFICATIONS

Role Persona	Field Specialist (Ibrahim Spark)
Route Path	#/technician-home
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Status Control	Online / Offline broadcast switch
Daily Metrics	124 Jobs Done ★ 4.9 Rating 0 EGP Today

KEY CAPABILITIES & USER FLOW

- ❖ Shows active job in progress (Air Conditioning) with resume button
- ❖ Displays incoming requests in compound with client suggested prices
- ❖ Direct 'Make Offer' and 'Accept Price' one-tap buttons

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

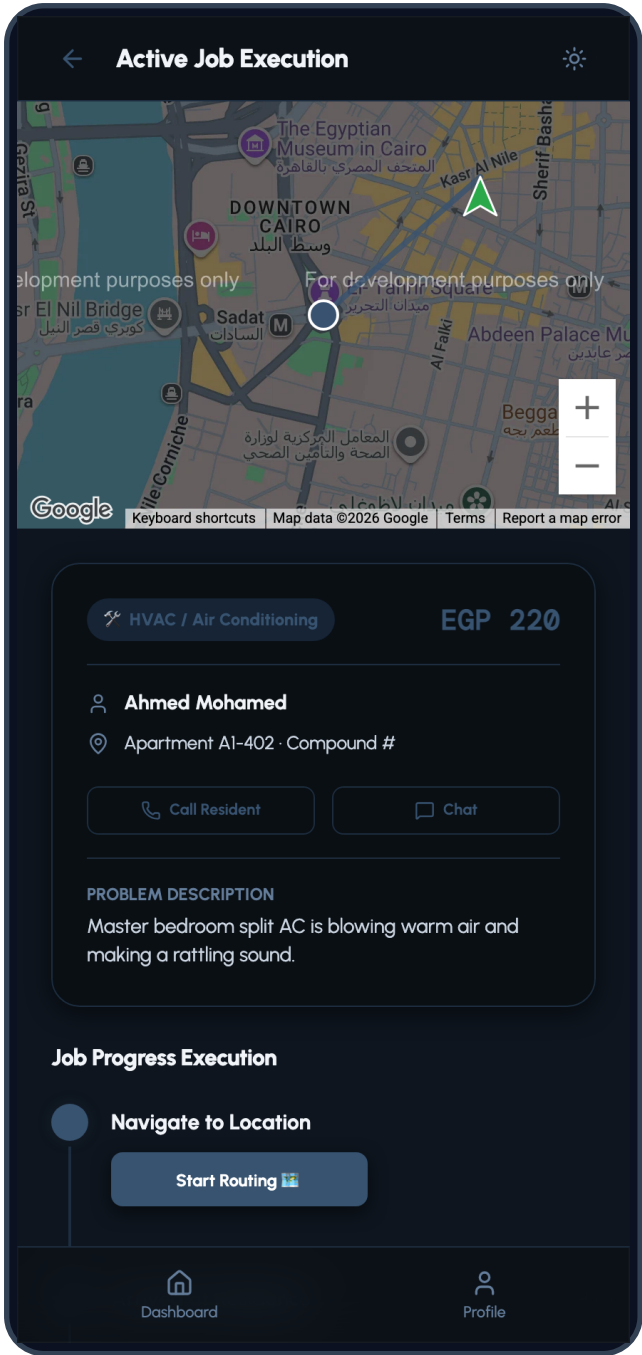

Price bidding bottom sheet where technicians review client suggested price (EGP 150), submit custom counter-offers, and attach arrival notes.

TECHNICAL SPECIFICATIONS

Role Persona	Bidding Contractor
Drawer Trigger	'Make Offer' button on request card
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Input Controls	Custom price input (EGP 150) + Arrival note field
API Endpoint	POST /api/v1/technician/orders/{id}/bid

KEY CAPABILITIES & USER FLOW

- ❖ Allows technicians to negotiate rates based on diagnostic complexity
- ❖ Pre-fills resident's proposed budget as baseline suggestion
- ❖ Submits instant price offer to resident marketplace via WebSockets

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

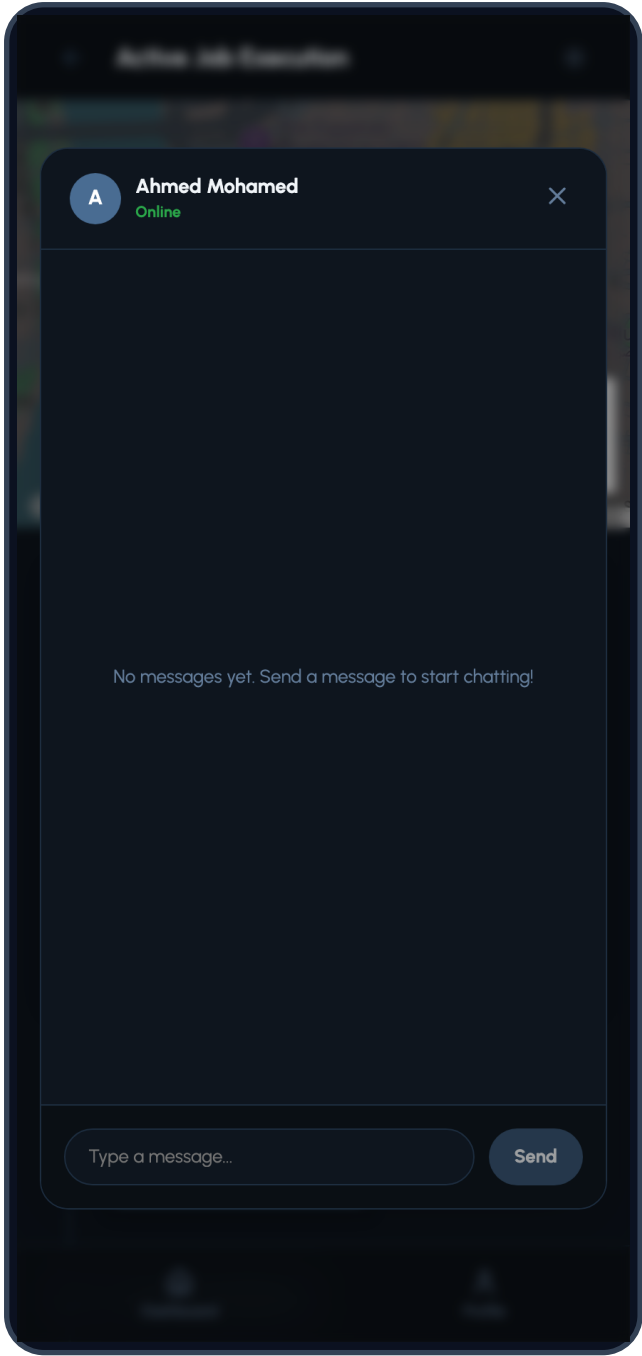

In-flight job execution screen showing real-time GPS map, resident / address (Ahmed Mohamed, Apt A1-402), agreed price (EGP 220), and Arrived Complete action triggers.

TECHNICAL SPECIFICATIONS

Role Persona	En-Route Contractor
Route Path	#/tech-execution
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
GPS Watcher	navigator.geolocation with continuous background updates
Actions	I Have Arrived, Call Resident, Open Chat, Finish Job

KEY CAPABILITIES & USER FLOW

- Shows interactive map with route polyline to resident compound villa
- Complete service details: HVAC rattle sound inspection (EGP 220)
- Milestone action buttons that notify the resident at each step

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

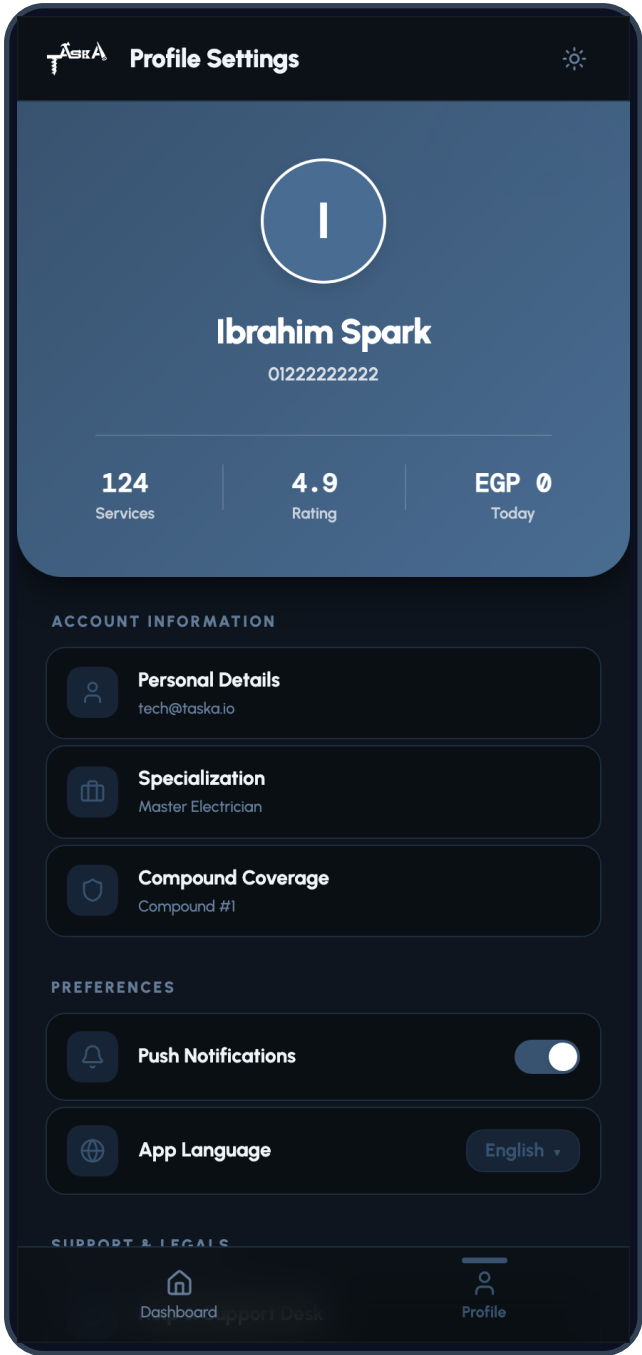

Direct contractor-to-client chat overlay allowing the technician to coordinate gate entry, announce arrival, and clarify maintenance symptoms.

TECHNICAL SPECIFICATIONS

Role Persona	Communicating Contractor
Drawer Trigger	Chat icon button in execution cockpit
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Target Resident	Ahmed Mohamed (Apt A1-402)
Channel	Bidirectional WebSocket connection (<code>`order.{id}`</code>)

KEY CAPABILITIES & USER FLOW

- ◆ Enables field contractors to communicate without leaving the active job
- ◆ Zero cost SMS-free communication via in-app WebSockets
- ◆ Clear message bubbles with timestamp and delivery receipts

Screen Architecture & Functional Specification

OVERVIEW & PURPOSE

Professional contractor credential card displaying verified badges, compound zone permissions, cumulative earnings, rating stars, and notification settings.

TECHNICAL SPECIFICATIONS

Role Persona	Ibrahim Spark (Master Electrician & HVAC)
Route Path	#/profile
Screen Resolution	Mobile 430 × 932 pt (Retina 2x)
Performance Stats	124 Jobs Done 4.9 Stars Palm Hills Zone
Settings	Language toggle, Push notifications, Profile photo

KEY CAPABILITIES & USER FLOW

- Comprehensive contractor identity card with verification badge
- Performance breakdown driving platform algorithm dispatch priority
- Direct language preference and system logout controls
